

Automatic Payment Posting

ChartMaker® Go provides automatic patient posting for many insurance carriers, saving your staff hundreds of hours of manual payment posting and resubmission for secondary payments. Automatic payment posting is included with the Change Healthcare EDI services. See the section on Electronic Insurance Claims for the cost of Electronic Data Interchange (EDI) per billing provider for these services.

Auto Posting

In many cases, ChartMaker® Practice Manager electronically posts your EOMB automatically, checks your profiles for correct payment accuracy, and balance bills your patients, saving most practices hundreds of labor hours each year.

The screenshot shows the 'Edit a Charge' window in the CHARTMAKER software. The window title is 'CHARTMAKER - Central Medical Associates (CM) - Beth - CMKR Demo'. The patient information is 'Jane Doe' with account number '565698'. The practice is 'Central Medical Associates'. The window contains several sections: 'Charge Header' with fields for Case, Provider, Referral, Start Date, End Date, and Encounter; 'Charge Insurance & Current Billing Status' with a table for insurance carriers (Ins 1, 2, 3) and status; 'Procedure' section with fields for Procedure code, Office Visit, TOS, POS, Units, Price, and Charge; and 'Charge Detail' section with fields for diagnosis codes, approval numbers, and dates. There are also buttons for 'Save', 'HCEA', 'Cancel', 'Ambulance', and 'Chiropractor'.
