

## Automatic Payment Posting

ChartMaker® Go provides automatic patient posting for many insurance carriers, saving your staff hundreds of hours of manual payment posting and resubmission for secondary payments. Automatic payment posting is included with the Change Healthcare EDI services. See the section on Electronic Insurance Claims for the cost of Electronic Data Interchange (EDI) per billing provider for these services.

### Auto Posting

In many cases, ChartMaker® Practice Manager electronically posts your EOMB automatically, checks your profiles for correct payment accuracy, and balance bills your patients, saving most practices hundreds of labor hours each year.

The screenshot shows the CHARTMAKER software interface for 'Central Medical Associates (CM) - Beth - CMKR Demo'. The main window displays a 'Charge' entry form for patient 'Jane Doe' (Account #: 565698) at 'Central Medical Associates'. The form is divided into several sections:

- Charge Header:** Includes Case (NRM), Provider (RFN), Referral (PEM), Start Date (07/12/2006), BProvider (RFN), Facility (0), End Date (07/12/2006), OProvider, DRReferral, Encounter (11304), and Type.
- Charge Insurance & Current Billing Status:** Features a table for insurance carriers (Ins 1, 2, 3) with status (A) and a dropdown for 'Ins' (AETNA). It also includes 'Status' (B), 'Date Billed' (//), and 'Patient Copay' (15.00).
- Procedure:** Shows 'Office Visit - Level III' (Procedure: 99213), TOS (1), POS (0), Units (1), Price (210.00), and Charge (210.00).
- Charge Detail:** Lists diagnosis codes (Diag 1-5) and associated dates (Approval 1, Approval 2, Onset Type, Onset Date).

Buttons at the bottom include 'Save', 'HCEA', and 'Cancel'. The interface also shows a menu bar with options like 'Patient', 'Charge', 'Payment', 'Inquire', 'Insurance Billing', 'Patient Billing', 'Appointment', 'Clinical', and 'Remittance'.
