

Medical Office Billing

“The Center for Medicare Services (CMS) has reported that it rejects 26% of the claims it receives. While that number is astonishing, more astonishing is the fact that 40% of those rejected claims are never resubmitted. Using Medicare’s statistics, the lost revenue per physician is about 10%. On a per physician basis, this ranges from approximately \$25,000 to over \$50,000”.¹
